

6-4-07 Elementary ELT Meeting
Littleville Teachers Room 4:00 pm

Attending: L.Jasmine, D.Robbins, J.Blocker, M.Saunders, S.Henson

In preparation for the “Community Presentation” slated for June 20th, 2007 –
Our group is reviewing the notes and survey information that we wish to compile in a PowerPoint presentation.

Dr. Hopson wants each school to provide a potential schedule that reflects how ELT might be implemented. J.Blocker is preparing a sample schedule for an elementary school with about 200 students.

We also want to include in the PowerPoint:

- 1) Our ‘Vision statement’ - attached (S.Henson)
- 2) Expectations for Teaching and Learning - on 5/14/ notes (by D.Robbins)

Depending on staffing and budget the enrichment will be offered as a variety of opportunities in a 8-10 week rotation/schedule, which would allow our students to participate in tutoring – activities – enrichment throughout the year.

These opportunities will be aligned with the Massachusetts Curriculum Frameworks. May be taught by current staff, our Community Partners or a combination of these. How the course will be evaluated will be through observations and surveys.

The District and School will use current benchmarks as a starting point, and the Goal will be a marked improvement in the measurable indicators currently established.

Send to W.Long and if anything is missing & let us know.

Next meeting scheduled for 6-12-07 at 4 PM in Littleville Teachers Room.
