

Anatomy and Physiology

Mrs. Jensen

Room 219 Block II

Course Description

This course will cover the gross and microscopic anatomy and the cellular and organic physiology of the human body, using the domestic cat in the laboratory to emphasize the anatomy, and several vertebrate species for physiology, integumentary, muscular, skeletal, and nervous system comparisons.

Text

Human Anatomy & Physiology, by Elaine N. Marieb. Your book must be covered at all times and contain your name. You need to bring your book to class every day.

Web Page *

Throughout the semester you will be using information found on my web page. Some of our classroom activities and labs will be posted there. You will also be able to access homework assignments if you are absent or forgot to jot down the homework.

<http://www.grsd.org/hs/teachers/jensenc/>

Student Internet Account

It's important that you and your parents fill out the appropriate paperwork enabling you to have a student internet account. Having access to the school computers will be important for many of our class activities and will also allow you to have school 'storage space' to store documents you are working on for class work.

Notebook

You will be required to keep a notebook. It should be of the three-ringed variety and all papers received should be kept there as well as the notes taken in class.

Grading

Tests, quizzes and lab reports-75%

Classwork-including class participation and behavior from the rubric/homework/notebook-25%

Powerschool *

Your parents may be able to follow your progress in this course and others. More information will be forthcoming from the district.

Sign in Sheet

If you are tardy to class, which means that you are not in class before the bell rings, you must sign in on the "Tardy to Class Sign-in Sheet." In addition to disciplinary action, being tardy may sometimes affect your grade because pop-quizzes will always be given during the first 5 minutes of class.

Lavatory Passes

Lav passes will not be signed during the first 45 minutes of class. Remember that daily trips to the lav during class time are recorded on the rubric.

Absences

If you are absent, you are responsible for making up missed work within one week of your absence(s). Failure to do so will result in a zero(s)!

Required Materials

You are responsible for bringing all necessary materials to class. This includes your book, notebook, paper, writing utensil, and homework assignment.

Student Work

Homework must be completed in pencil, **blue or black ink**. It must be neat and on standard sized paper (8 1/2 by 11). Any cheating will result in a zero for all parties involved. Plagiarism will also result in a zero.

Food and Beverages

This is a science lab. Food and beverages do not belong here.

Science Laboratory Behavior

Lab is serious business. Any horseplay will result in immediate dismissal from the classroom and a zero for the day. There will be times when equipment might be broken by accident. Report these incidents to me immediately.

Classroom Dismissal and Classroom Clean-up

Class is dismissed by me, not the bell, which is merely a reminder. Please clean up your work area after lab or any class activity. It's your responsibility and a necessity if you want to get out of class on time.
