

SCHOOL-COMMUNITY RELATIONS GOALS

The Gateway Regional School Committee believes that the public schools belong to the people who created them by consent and support them by taxation, and the support of the people must be based on their understanding of and their participation in the aims and efforts of the schools. Therefore, the committee declares its intent:

1. To keep local citizens regularly and thoroughly informed through all available channels of communication on the policies, programs, problems, and planning of the school system, and to carry out this policy through its own efforts, those of the Superintendent, and such information officers as may be appointed.
2. To solicit the studied counsel of the people through advisory committees selected from the community and appointed to consider problems that vitally affect the future of our children.

SCHOOL/PARENT RELATIONS GOALS

It is the general goal of the District to foster relationships with parents which encourage cooperation between the home and school in establishing and achieving common educational goals for students.

While parents are individually responsible for their children, the District provides direct services of education and indirect services of child care for students during the time when they are within the supervision of school personnel. Consistent with these shared responsibilities and as appropriate to the maturity of the student, members of the school staff will consult with parents regarding student progress and achievement, methods to enhance student development, and matters of correction.

Additionally, parental involvement in the schools is encouraged through regular communication with the school principal and staff, the parent/teacher organizations, the school volunteer program, and other opportunities for participation in school activities and District programs.

RELATIONS WITH PARENT ORGANIZATIONS

To foster relationships with parents that encourage the home and school to work together to establish and achieve common educational goals for students, the Superintendent and the professional staff will:

1. Consult with and encourage parents to share in school planning and in setting objectives and evaluating programs.
2. Help parents understand the educational process and their role in promoting it.
3. Provide for parent understanding of school operations.
4. Provide opportunities for parents to be informed of their child's development and the criteria for its measurement.

To accomplish the above and to enhance communications between parents and school officials, the committee encourages the maintenance of formal parent organizations at each school building. For this purpose the committee will officially recognize a parent organization at each building. These procedures will be observed:

1. Organizations will be officially recognized upon request by the building principal who will file a copy of the organizational papers with the Superintendent.
2. A vote, open to all parents of children enrolled, will designate the organization to be recognized if more than one organization makes the request.

COMMUNITY INVOLVEMENT IN DECISION-MAKING

The Gateway Regional School Committee endorses the concept that community participation in the affairs of the schools is essential if the school system and the community are to maintain mutual confidence and respect and work together to improve the quality of education for students. It therefore intends to exert every effort to identify the desires of the community and to be responsive, through its actions, to those desires.

All citizens will be encouraged to express ideas, concerns, and/or about the schools to the school administration, to any appointed advisory bodies, and to the committee.

Residents, who are specially qualified because of interest, training, experience, or personal characteristics, will be encouraged to assume an active role in school affairs. From time to time, these people may be invited by the committee to act as advisors, either individually or in groups.

The Committee and the staff will give substantial weight to the advice they receive from individuals and community groups interested in the schools, particularly from those individuals and groups they have invited to advise them regarding specific problems, but will use their best judgment in arriving at decisions.

PUBLIC GIFTS TO THE SCHOOLS

The Superintendent will have authority to accept gifts and offers of equipment for the schools in the name of the committee when the gift is of educational value. In the case of gifts from industry, business, or special interest groups, no extensive advertising or promotion may be involved in any donation to the schools.

Gifts that would involve changes in school plants or sites will be subject to School Committee approval.

Gifts will automatically become the property of the school system. Any gift of cash, whether or not intended by the donor for a specific purpose, will be handled as a separate account and expended at the discretion of the Committee, as provided by law.

The Committee directs the Superintendent to assure that an appropriate expression of thanks is given all donors.

PUBLIC'S RIGHT TO KNOW

The Gateway Regional School Committee is a public servant, and its meetings and records will be a matter of public information except as such meetings and records pertain to individual personnel and other classified matters.

The School Committee supports the right of the people to know about the programs and services of their schools and will make every effort to disseminate information. All requests for information will be acted on fairly, completely and expeditiously.

The official minutes of the Committee, its written policies and regulations, and its financial records will be open for inspection at the office of the Superintendent by any citizen desiring to examine them during hours when the office is open. No records pertaining to individual students or staff members will be released for inspection by the public or any unauthorized persons by the Superintendent or other persons responsible for the custody of confidential files. The exception to this will be information about an individual employee (or student) that has been authorized in writing for release by the employee (or student, or student's parent).

Each building administrator is authorized to use all means available to keep parents and others in the particular school's community informed about the school's program and activities.

NEWS MEDIA RELATIONS/NEWS RELEASES

Every effort will be made to assist the press and other communications media to obtain complete and adequate coverage of the programs, problems, planning, and activities of the school system.

All representatives of the media will be given equal access to information about the schools. General releases of interest to the entire community will be made available to all the media simultaneously. There will be no exclusive releases except as media representatives request information on particular programs, plans or problems.

In order that school system publicity is given wide coverage and is coordinated into a common effort and purpose, the following procedures will be followed in giving official information to the news media:

1. The School Committee Chair will be the official spokesman for the Committee, except as this duty is delegated to the Superintendent.
2. News releases that are of a system-wide or a sensitive nature or pertain to established Committee policy are the responsibility of the Superintendent.
3. News releases that are of concern to only one school, or to an organization of one school, are the responsibility of the principal of that particular school. All statements made to the press by other staff members of the particular school must be cleared with the principal.

While it is impossible to know how news releases will be treated by the press, every possible effort should be made to obtain coverage of school activities that will create and maintain a dignified and professionally responsible image for the school system.

PUBLIC COMPLAINTS

Although no member of the community will be denied the right to bring their complaints to the Committee, they will be referred through the proper administrative channels for solution before investigation or action by the Committee. Exceptions will be made when the complaints concern Committee actions or Committee operations only.

The Committee believes that complaints are best handled and resolved as close to their origin as possible, and that the professional staff should be given every opportunity to consider the issues and attempt to resolve the problem prior to involvement by the Committee. Therefore, the proper channeling of complaints involving instruction, discipline or learning materials will be as follows:

1. Teacher
2. School building administrator
3. Superintendent
4. School Committee

If a complaint, which was presented to the Committee and referred back through the proper channels, is adjusted before it comes back to the School Committee, a report of the disposition of the matter will be made to the Committee and then placed in the official files.

Matters referred to the Superintendent and/or School Committee must be in writing and should be specific in terms of the action desired.

The Committee expects the professional staff to receive complaints courteously and to make a proper reply to the complainant.

PUBLIC COMPLAINTS ABOUT SCHOOL PERSONNEL

Complaints about school personnel will be investigated fully and fairly. However, before any such complaint is investigated, the complainant must submit his complaint in writing. Anonymous complaints will be disregarded.

Whenever a complaint is made directly to the School Committee as a whole or to a committee member as an individual, it will be referred to the school administration for study and possible solution.

The Superintendent will develop, for approval by the committee, procedures that assure prompt and fair attention to complaints against school personnel. The procedures will require that an employee who is the object of a complaint be informed promptly and be afforded the opportunity to present the facts as he sees them.

If it appears necessary, the administration, the person who made the complaint, or the employee involved may request an executive session of the committee for a formal hearing and decision. Statutory restrictions on executive sessions will be observed.

PUBLIC COMPLAINTS ABOUT SCHOOL PERSONNEL

The following procedures are established to ensure that a citizen's complaint is given respectful attention and that the integrity of the educational program is upheld. "Complaint" in this regulation will be restricted in meaning to that criticism of particular school employees by a citizen of the school district which includes or implies a demand for action by school authorities. Other comments and suggestions will be referred informally to affected personnel.

1. If a complaint comes first to the person against whom it is directed, he will listen courteously and may try to resolve the difficulty by explaining the background and educational purpose involved. If the complaint remains unsatisfied, the employee will refer him to the building principal or other immediate supervisor to have his views considered further. Whether the complaint terminates with the individual staff member involved or seems likely to go further, the staff member will immediately inform his supervisor of the complaint.
2. If a complaint comes first to the principal or other supervisor of the person criticized, he should listen courteously or acknowledge a letter promptly and politely, but should make no commitments, admissions of guilt, or threats. If the complaint involves a particular employee, the supervisor should suggest a conference between the complainant and the person criticized and should inform that person immediately of the complaint.

If the complainant has already met with the person criticized and remains unsatisfied, the supervisor should invite the complainant to file his complaint in writing and offer to send him the appropriate form regarding a school employee's behavior, character or qualifications.

3. If a complaint comes first to any other school employee, that employee will refer the complainant to the person criticized or his immediate supervisor and immediately inform both.
4. No further action on the complaint should be taken unless the complainant submits the complaint in writing.
5. When a written complaint form is received, the principal or other supervisor will schedule a conference with himself, the complainant, the person criticized, and if advisable, the department chairman or other personnel that either the supervision or the person criticized feels could contribute resolution of the problem.
6. If the complainant is not satisfied with the results of the conference above, he should then be referred to the Superintendent, who may handle the complaint personally or refer it to other personnel, as he may see fit.

7. Should dissatisfaction remain after the above steps have been taken, the matter will be placed on the agenda for the next regularly scheduled committee meeting. The decision of the committee will be communicated in writing to all interested persons.

PUBLIC CONCERNS/COMPLAINTS ABOUT INSTRUCTIONAL RESOURCES

The School Committee, though it is ultimately responsible for all curriculum and instructional materials (including library books) recognizes the need and right of students to free access to many different types of books and materials. It also recognizes the right of the professional staff to select books and other materials supportive of the school system's educational Philosophy and goals.

Criticism of a book or other materials used in the schools may be expected from time to time. In such instances:

1. If a parent requests that his own child not read a given book, the teacher and/or school administrator should resolve the situation, perhaps by arranging for use of alternative material meeting essentially the same instructional purpose. This does not apply, however, to basic program texts and materials that the Committee has adopted.
2. The Committee will not permit any individual or group to exercise censorship over instructional materials and library collections, but recognizes that at times a reevaluation of certain material may be desirable. Should an individual or group ask to have any book or other material withdrawn from school use:
 - a. The person who objects to the book or other material will be asked to sign a complaint on a standard form on which he will document his criticism.
 - b. Following receipt of the formal complaint, the superintendent will provide for a reevaluation of the material in question. He will arrange for the appointment of a review committee from among the staff to consider the complaint.
 - c. The superintendent will review the complaint and the committee's reevaluation and will render a decision in the matter. Should the decision be unsatisfactory to the complainant, he may appeal it to the School Committee, who shall make a recommendation to the School Committee on the complaint.

In summary, the Committee assumes final responsibility for all books and instructional materials it makes available to students; it holds its professional staff accountable for their proper selection. It recognizes rights of individual parents with respect to controversial materials used by their own children; it will provide for the reevaluation of materials in library collections upon formal request. On the other hand, students' right to learn and the freedom of teachers to teach will be respected.

COMMUNITY USE OF SCHOOL BUILDINGS

Information

This policy contains all the information that needed to reserve school facilities in the Gateway Regional School District. The Gateway Regional School District supports the use of school facilities by community groups (after normal use by students and faculty) and believes that such use enriches the quality of life in the Gateway District for everyone-students and adults alike.

The Gateway District has extraordinary schools and community groups that have used school facilities for meetings and events for many years. The School Committee is pleased to invite you to continue to hold events in our schools. The updated policies, procedures, and regulations represent the efforts of the Gateway School Committee to encourage the use of facilities, bring a greater consistency to the regulations and fee structure associated with facility use, and protect the community's investment in school facilities.

It is the policy of the Gateway Regional School District not to discriminate on the basis of race, color, religious creed, age, marital status, national origin, ancestry, sex, mental disability, or physical disability in any of its programs, activities, or employment policies.

Building Use Philosophy

The policy of the Gateway Regional District School Committee is to encourage the use of the schools as community centers within the limits of good management and practical considerations. The Committee feels that it is incumbent upon all users to manage their activities as effectively as possible; first, because of the investment involved and, secondly, because of civic pride.

The use of the Gateway Regional School District buildings will be conducted under the following rules and regulations. These rules, under the provisions of Chapter 71, Section 71, will be operative until further changes are deemed necessary and advisable.

No such use of school facilities, however, shall at any time be allowed to interfere with or limit the regular work or extracurricular activities of the school program, or of classes or activities under the direction of the Gateway Regional School District School Committee.

Additionally, the use of facilities must be consistent with the District's energy conservation and security program.

The Superintendent and/or School Committee reserves the right to modify or waive fees when, in its judgment, circumstances so warrant.

Funds received in connection with the rental of school facilities will be deposited into a separate revolving account. Such funds will be used to pay associated costs of the activity (e.g. custodial fees) and/or make building repairs, replace worn equipment, or offset the costs of energy and custodial supplies.

3. Commercial and fund-raising activities may disrupt school routine and cause loss of instructional time.

Following these guiding statements, the Superintendent and principals may permit occasional commercial or fund-raising activities related to the objectives of the schools with the following exceptions:

VISITORS TO THE SCHOOLS

The School Committee encourages parents and guests to visit classrooms to observe and learn about the instructional programs taking place in our schools. Such visits can prove most beneficial in promotion of greater school-home cooperation and community understanding of how we carry out the school system's mission and goals.

Visits by parents to several classrooms in a given grade for the purposes of comparing teaching styles to provide a basis for a request for student assignment to a particular teacher are strongly discouraged because the school district's policy of assigning a student to a particular class is the sole responsibility of the building principal in consultation with the staff of that school.

The following guidelines to classroom and school visits should be followed:

1. Parental requests for classroom visitations will be welcomed as long as the educational process is not disrupted. To this end we request that such requests be made at least forty-eight hours in advance to allow for proper arrangements to be made.
2. The building Principal has the authority to determine the number, times, and dates of observations by visitors. This will be done in consultation with staff members so as to give adequate notice to the staff members of the impending visits.
3. For security purposes it is requested that all visitors report to the Principal's office upon entering and leaving the building and sign a guest log showing arrival and departure times. Teachers are encouraged to ask visitors if they have registered in the Principal's office.
4. Under ordinary circumstances classroom observations will be strongly discouraged during the first three weeks of school in September and during the month of June.

RELATIONS WITH BOOSTER ORGANIZATIONS

The Gateway Regional School Committee recognizes that the endeavors and objectives of booster organizations and similar groups can be a valuable means of stimulating interest in and endorsement of the aims and achievements of our public school system.

Generally, actions initiated by boosters provide the atmosphere and climate to foster and encourage community-school relationships.

Booster-proposed plans, projects, or activities must be evaluated and promoted in light of their stated contribution to the academic as well as the athletic and fine arts programs of the schools. Care must be taken to avoid compromising or diluting the responsibilities and authorities of the School Committee.

RELATIONS WITH POLICE AUTHORITIES

Cooperation with law enforcement agencies is essential for the protection of students, for maintaining a safe environment in the District schools, and for safeguarding all school property.

Relationships between the schools and officials of law enforcement agencies in investigative matters concerning pupils will take into consideration the respective roles of the schools and law enforcement agencies in assisting and protecting the interests of the community, and ensuring the rights of all concerned.

The School Committee also recognizes the potential enrichment that law enforcement agencies can make in the educational program.

Efforts should be made to develop and maintain a healthy attitude toward law enforcement agencies and personnel to promote better understanding and communication.

RELATIONS WITH PLANNING AUTHORITIES

The Gateway Regional School Committee will participate in local and state planning functions that could directly affect District schools and their immediate environment.

The Superintendent or designee will keep the School Committee informed of planning matters bearing directly on the operation of District schools or school-sponsored programs, and will undertake action on behalf of the School Committee to influence matters in the best interests of the students, the schools and the District.

RELATIONS WITH LOCAL GOVERNMENTAL AUTHORITIES

The School Committee and its administrative officers welcome all who seek to serve the residents of the community and will participate with them in the planning and execution of such projects as will be mutually beneficial for students.

It is School Committee policy that administration inform elected and appointed officials of the local and county government of the desire to work cooperatively for improved services.
