VHS to DVD-R fundraiser for Gateway film studio

Huntington – Gateway’s Video Production class continues to raise funds for new equipment and other needs. They are converting home videos and educational videos from VHS to DVD as a yearlong fundraiser.

The class provides videos of current events on the district website, and also creates film for video competitions, generates music videos and movie remakes.

The cost is \$10 for the first conversion, and additional DVDs of the same item are just \$5. Under copyright laws, television shows and movies that have been taped cannot be converted. Educators’ school videos are free (limit 5)!

Converting a VHS to DVD should take approximately 1-2 weeks, unless more than 10 tapes have been submitted—that could take up to 4 weeks.

VHS tapes should be brought to the High School Office.

For more information, contact Christine O’Malley by emailing comalley@grsd.org.
