College Planning Workshop at Gateway

Huntington – The Gateway Guidance Department is hosting an evening workshop for juniors and underclassmen on the college planning process on Thursday, April 4 from 6:30 – 7:30 p.m. in the middle school double room (112/114).

This workshop is for juniors and their families, but is open to all underclassmen at the school. Topics to be discussed include: creating a college list, admissions policies, college entrance testing, college applications, essays, recommendations, financial aid, college visits, and interviews.

Those interested should sign up in the Guidance Office. Please feel free to contact the Guidance Office at (413) 685-1107 if you have questions.

The time to start making decisions about life after high school will be here before you know it! Being informed is one of the best ways to effectively prepare for this transition.
